

Communities of Faith Make a Difference!

Engagement Opportunities

By engaging with Community Action of Skagit County, you are creating pathways and opportunities for your community to learn, share, support, and help individuals who need immediate help.

- **Learn:** Poverty Education through presentations, resource tabling, and sharing information with the community.
- **Volunteer:** Individual and group projects available! Help seniors, families with children, food bank customers, and more.
- **In-Kind Donations:** Your community of faith's time, expertise, and goods/services can help change lives!
- **Fundraising:** Opportunities to align your congregation's mission and giving strategies, to help people without homes, families with children, or seniors.
- **Organize:** Do more together than we can on our own, by joining efforts to better connect community-based resources, such as the Community Resource Network, or Latinx Advisory Committee.
- **Community Engagement Planning:** A simple process to help groups identify goals, and build out meaningful volunteer and donation drive projects throughout the year, to connect members to community impact.
- **And more!**
